\$23,248.61

At a special town meeting held February 5, 1915, the town voted to issue its bonds in the sum of \$30,000 at 4 per cent. The same were sold to Hornblower & Weeks of Boston for \$29386 and accrued interest from January 1, 1915, they to pay for printing, examination and certification of the same.

The new school house will cost, approximately, \$40,000, which leaves \$10,000 to be raised by direct taxation. We have recommended, as you will see by our recommendations, \$2,000 to be raised towards the extinguishment of the debt each year, from now until the balance is paid.

Respectfully submitted,

George W. Stearns) Selectmen of Frederick E. Doyle) Millinocket

Although nearly all the schools have been over-crowded this year yet the quality of the work has been better than that of last year. All the schools are in good condition, and the teachers are working hard.

The new teachers have taken up the work with a considerable amount of interest and enthusiasm. We are fortunate to have Mr. L. W. Ames for principal of our high school. Mr. Ames is a fine teacher, and is well liked by the scholars and parents.

There are too many parents who allow their children to be absent for trivial reasons. Over half the cases of being absent are entirely unnecessary. To allow a child to be absent or tardy, unless there is some special reason, is detrimental to that child's future welfare.

Owing to delays on the part of the architect and company furnishing the cement trimmings, I doubt very much if we shall be able to use the new school building before next fall. When it is finished, however, we shall have one of the best school buildings north of Bangor.

The work in Domestic Science has been considerably better this year than last. The classes in cooking have done very good work. Next year, we expect to have at least one sewing machine for the classes in sewing.

SIGNAL FOR NO SCHOOL

The ringing of the school bell at 7.45 indicates no school for the forenoon session. The ringing of the school bell at 12.45 indicates no school for the afternoon session.

CONCLUSION

With a new school building for next year to relieve the overcrowded condition which has existed for some time, we shall look forward to the most successful school year in the history of the town.

Respectfully submitted,

W. M. Marr, Superintendent.

Report of Board of Health

To the Selectmen and Citizens of Millinocket, Greeting:—

The board of health herewith present their report for the year 1914 for your consideration.

The year has been remarkably free from disease of the more severe and contagious type. One case of Small Pox originating probably in Somerset county was recognized and cared for at the hospital. Three cases of Diphtheria of a mild type and one of Scarlet Fever together with three of Typhoid complete the list of contagious diseases. Would state that two of the Typhoid cases were undoubtedly contracted outside the town. The other, a very mild one, could not be traced,

Two cases of tuberculosis were reported. A question of great practical importance is how persons acquire that disease, Reduced to its simplest form the question is:

First: Is the disease hereditary.

Second: What part has infection after birth.

The former we know now has so little to do with it as to be disregarded, therefore infection is left and its sources are two-fold. It comes from Tuberculous animals and from Tuberculous human beings.

The main source of infection of animal origin is milk from Tuberculous cows, but this is almost negligible as compared to the numbers of cases of infection from the bacillus of Tuberculosis of the human type. In conclusion there are three ways in which it may be transmitted from the sick to other persons.

First: By the inhalation of dust containing particles of dried sputum.

Second: Inhalation of fresh sputum which consumptives spray into the air while coughing.

Third: Infection otherwise than by inhalation.

These few points may be of some benefit to those coming into contact with persons suffering from the "White Plague."

The district nurse, Miss Strauss, is still with us and continues in her good work.

Trusting that the coming year may be as free from disease as the past, we remain,

Very respectfully,

Board of Health,

By J. F. Stevens, Health Officer.

Report of Chief of Fire Department

To the Selectmen of Millinocket, Maine:—

I respectfully submit my report of the Fire Department for the year ending February 15, 1915.

Whole number of alarms,	27
Still alarms,	14
General alarms,	12
False alarms,	1
Total damage, estimated,	\$6000.00
Insurance paid on property damaged,	5000.00

The apparatus is in fair condition. The hook and ladder truck ought to be painted and we ought to buy the coming year 500 feet of new hose.

I would recommend that a storage battery be installed in the place of the present gravity battery, and also that the present team of horses be exchanged for a younger one.

It is of much satisfaction to note the fact that parties discovering fires are using the telephone more instead of pulling in an alarm, which saves the town money, and as there is always a man in attendance at the hose house, I hope this practise will be used more.

Thanking the Board of Selectmen and the public for their hearty support and good will in behalf of the members of the department and myself, I remain,

Yours very truly,

Fred M. Gates, Chief.

Uncollected Taxes for the Year 1914
